EXPERIENCE

Skylink Technologies — Addis Ababa, Ethiopia

Senior Full Stack Developer — 01/2023 - Present

- Developed Eport, a logistics management system with an admin portal and mobile application for managing drivers, routes, and route assignments; integrated Chapa for driver membership payments and Afro Message for SMS route notifications.
- Developed an e-learning platform with course enrollment and payment processing, including Chapa integration.
- Developed the MUB Agency System for managing end-to-end recruitment and compliance processes for GCC employment.
- Developed an HR Management System for Minber and Dana Steel covering employee management, attendance, payroll, promotion, performance, recruitment, shifts, leave, and reporting.
- Developed Sales and Inventory Management Systems for multiple businesses, including Glow Ethio-Turkiye, AK Vision, Skylink Technologies, and Jabulani.
- Developed a Clinic Management System for Befan Dermatology Clinic covering patient records, appointments, vital signs, prescriptions, check-in, and health records.
- Contributed to backend development for Minber Super App, supporting the development of its backend services and functionality.
- Developed an ERP system with procurement, sales, inventory, production, and product costing modules.
- Developed a School Management System for managing core school operations and administrative activities.

Jhon Snow Inc - JSI — Addis Ababa, Ethiopia

Software Developer — 11/2022 - 01/2023

- Contributed to the development of Dagu, a Ministry of Health system for managing the distribution and tracking of medicines across warehouses and health facilities.
- Contributed to frontend development and system testing using Angular, helping deliver functional and user-friendly features.

Atlantic Software Solution PLC — Addis Ababa, Ethiopia

Web Developer (Intern) — 02/2022 - 08/2022

- Developed and customized a WordPress-based e-commerce website.
- Configured WooCommerce for product management, shopping cart, checkout, and order processing.
